Re: WC Dkt. Nos. 05-337, 99-68, & 04-36; CC Dkt. Nos. 01-92 & 96-45

Dear Ms. Dortch:

By this letter, One Communications Corp. seeks to emphasize the critical importance of avoiding retroactive application of access charges to voice traffic that originates in IP format and terminates on the PSTN ("IP-PSTN voice traffic"). Retroactive application of terminating access charges to IP-PSTN voice traffic would be manifestly unjust to carriers that have acted as wholesale providers of transport to VoIP providers, and it would initiate a welter of needless and costly litigation. Accordingly, if the FCC does decide to apply terminating access charges to IP-PSTN voice traffic, the FCC should make crystal clear that the FCC's ruling has prospective effect only.

Pursuant to Section 1.1206(b) of the Commission's rules, 47 C.F.R. § 1.1206(b), a copy of this notice is being filed electronically in the above-referenced dockets.

Respectfully submitted,

/s/
